

## SolarMax Energy Systems

# Tajikistan communication base station power supply hybrid power supply requirements

## Overview

---

Does Tajikistan have a power system?

The existing electrical transmission and distribution systems of Tajikistan, designed in the 1970s during the Soviet era, are also being upgraded and expanded, allowing transmission of power from Tajikistan to surrounding countries.

What is Tajikistan's hydropower potential?

Tajikistan's hydropower potential is estimated at 527 billion kWh per year, which exceeds the existing electricity consumption of the countries of Central Asia by 300%. The country's largest project is the Roghun Dam Hydropower Plant project, which when completed is estimated to produce 3600 Megawatts of energy.

Can Tajikistan become a net energy exporter?

The Government of Tajikistan aims to transform itself from a net energy importer to a net energy exporter, on the strength of its potential for hydropower and solar power production. According to the World Bank, Tajikistan's power production is 92 percent hydropower, six percent hydrocarbon, and two percent from other sources.

Does Tajikistan need solar power?

The government is actively seeking support for development of solar power, noting that the country has an average of 300 sunny days per year, with mountain terrain unsuitable for farming allowing space for solar farms. Tajikistan is encouraging the use of electric vehicles, particularly in Dushanbe.

Will Tajikistan encourage electric vehicles in Dushanbe?

Tajikistan is encouraging the use of electric vehicles, particularly in Dushanbe. This will require a significant increase in charging and monitoring stations. IEA:

## Tajikistan 2022 - Energy Sector Review.

### What is a base transceiver station?

The base transceiver station is one of the main components of cell sites that consume energy. Diesel fuel purchases for generators, which make up over 80 % of plant-level energy expenditures at off-grid and off-grid tower sites, are the primary source of these costs.
