

SolarMax Energy Systems

Thailand photovoltaic panel manufacturer

Overview

Who makes solar panels in Thailand?

Headquartered in Nonthaburi, Soleos Solar Co., Ltd. is another leading manufacturer and supplier of solar panels in Thailand. The company was established in 2009, and since then, it has been providing an extensive range of photovoltaic products, including mono and poly-crystalline modules.

Where are photovoltaic modules made in Thailand?

The company's massive 72MW photovoltaic module production facility is located in Bang Pa-in, Ayutthaya. They offer an extensive product range, which includes solar cells, modules, and complete photovoltaic power generation systems. The company's mission is to contribute to Thailand's energy sustainability by focusing on renewable energy.

Is Thailand a good place to buy solar panels?

Thailand, known for its rich culture and picturesque landscapes, is also quickly becoming a global leader in renewable energy. The country's strategic location and climate make it an ideal place for harnessing solar energy, fostering a diverse range of solar panel manufacturers and suppliers.

Who certifies solar inverters in Thailand?

For inverters, a crucial component of any solar energy system, the certification is given by the Provincial Electricity Authority (PEA) and the Metropolitan Electricity Authority (MEA). Any solar inverter manufacturers in Thailand must adhere to these regulations to ensure the safe and efficient operation of the inverters.

Why should you choose Yingli solar panels in Thailand?

Recognized for its strong commitment to sustainable solar energy, Yingli offers a range of efficient, reliable, and affordable solar panels, making it a favored choice among customers in Thailand. Yingli's solar panels are

renowned for their high energy yield and durability.

Are solar panels safe in Thailand?

In Thailand, solar panels and the associated equipment need to conform to the standards set by the Thai Industrial Standards Institute (TISI). TISI provides certification for different types of solar panels based on international standards. Solar panels that are imported or manufactured locally must pass TISI's safety and performance tests.
