

SolarMax Energy Systems

The first flywheel energy storage project company

Overview

Massachusetts-based Beacon Power, which has commercially produced and deployed its composite flywheel technology for grid-scale frequency regulation since 2008, this year reached the technical milestone of building the world's first grid-scale flywheel-based storage plant (Figure 1).

The first flywheel energy storage project company

China connects its first large-scale flywheel storage project to grid

China has connected to the grid its first large-scale standalone flywheel energy storage project in Shanxi Province's city of Changzhi. The Dinglun Flywheel Energy Storage ...
