Togo 200MW energy storage power station

Overview

The Adétikopé Solar Power Station is a planned 390 MW (520,000 hp) solar power plant in Togo, with 200 MWh (720 GJ), attached battery energy storage. The power station is in the development stage, under concessional terms by the company Arise Integrated Industrial Platforms (Arise IIP), a subsidiary of the.

The power station would be located in the Adétikopé Industrial Platform, in , in the of Togo. This is approximately 22 kilometres (14 mi), north of the city center of Lomé, Togo's capital city.

The developer/owners of this power station have given prospective EPC bidders two choices. The first option is to design, build, operate for 5 years and then transfer the power.

Arise IIP, working with the Togolese government is in the process of establishing an industrial park at Adétikopé. To supply power to the businesses and industries in the new industrial park, Adétikopé Solar Power Station is being.
