

## SolarMax Energy Systems

# Tuvalu 8GWh energy storage project

## Overview

---

In January 2020, Infratec commissioned a 73.5 kW rooftop solar panel-battery storage project on the Tuvalu Fisheries Department building in Funafuti, funded by the New Zealand Ministry of Foreign Affairs and Trade. Overview Renewable energy in Tuvalu is a growing sector of the country's energy supply. has committed to sourcing.

Tuvalu's power has come from electricity generation facilities that use imported diesel brought in by ships. The Tuvalu Electricity Corporation (TEC) on the main island of operates the large power station (20.

In 2014 the Tuvalu Electricity Corporation (TEC) began implementing a Master Plan for Renewable Energy and Energy Efficiency (MPREEE) through the Tuvalu Energy Sector Development Project (ESDP), w.

The led by made a commitment under the , which was signed on 5 September 2013, to implement power generation of 100% renewable energy (between 2.

On 27 November 2015 the Government of Tuvalu announced its (NDCs) in relation to the reduction of greenhouse gases (GHGs) under provisions of the United Nations Fra.

What is the Tuvalu solar power project?

The Government of Tuvalu worked with the e8 group to develop the Tuvalu Solar Power Project, which is a 40 kW grid-connected solar system that is intended to provide about 5% of Funafuti 's peak demand, and 3% of the Tuvalu Electricity Corporation's annual household consumption.

Where does Tuvalu electricity come from?

Tuvalu's power has come from electricity generation facilities that use imported diesel brought in by ships. The Tuvalu Electricity Corporation (TEC) on the main island of Funafuti operates the large power station (2000 kW).

What is Tuvalu's energy policy?

Tuvalu commits to reduction of emissions of green-house gases from the

electricity generation (power) sector, by 100%, ie almost zero emissions by 2025. Tuvalu's indicative quantified economy-wide target for a reduction in total emissions of GHGs from the entire energy sector to 60% below 2010 levels by 2025.

What was the first large scale solar system in Tuvalu?

The first large scale system in Tuvalu was a 40 kW solar panel installation on the roof of Tuvalu Sports Ground. This grid-connected 40 kW solar system was established in 2008 by the E8 and Japan Government through Kansai Electric Company (Japan) and contributes 1% of electricity production on Funafuti.
