

## SolarMax Energy Systems

# UAE integrated energy storage equipment

## Overview

---

Why should UAE invest in solar power & battery energy storage?

The world-leading project reflects the vision and commitment of the UAE leadership in driving socioeconomic and environmental progress. The accelerated integration of solar power and advanced battery energy storage sets a new benchmark in clean energy, driving sustainability and reducing carbon emissions.

What is Abu Dhabi's new energy storage system?

The opening, which coincided with the Abu Dhabi Sustainability Week 2019, marks the first integrated control system for energy storage in Abu Dhabi. It aims to serve the city by ensuring load balancing during the day.

Why should we invest in the UAE energy sector?

Guided by the UAE leadership, this united effort within the energy sector powers the nation's technological advancement, ushering in a new era of intelligence, resilience, flexibility, and commercial opportunity while ensuring sustainable and uninterrupted energy for exponential growth.

Why should Emirate invest in solar energy?

The project marks a remarkable transition for the emirate to ensure efficient and optimum use of energy and integration of solar and other forms of renewables to meet growing demand and provide load balancing to improve the distribution of workloads across multiple resources.

Does Dubai have a solar power plant?

This virtual battery plant will secure additional electricity supply for 6 hours in emergencies using storage batteries, he explained. He added that the emirate boasts other renewable power generation facilities, including the solar power plant, Noor Abu Dhabi, which will be operational soon.

Why is Abu Dhabi deploying a new power plant?

"The landmark deployment ensures sustainable energy supply across several key sites in Abu Dhabi as part of an integrated plan to secure sufficient electrical power production to meet growing demand for energy in the emirate," said Awaidha Murshed Al Marar, chairman of the Department of Energy.
