

SolarMax Energy Systems

Uganda grid-side energy storage

Overview

In a major step toward transforming its energy sector, the Government of Uganda has approved the development of a 100-megawatt (MW) solar photovoltaic power plant coupled with a 250 megawatt-hour (MWh) battery energy storage system.

Uganda grid-side energy storage

Grid side energy storage system

Our grid-side energy storage systems are designed to support utility operators, independent power producers (IPPs), and transmission system providers in improving grid flexibility, ...
