

SolarMax Energy Systems

Ukrainian photovoltaic panel manufacturer to produce rooftop photovoltaic

Overview

Is solar energy gaining traction in Ukraine?

Solar energy in Ukraine is gaining traction. With one of the largest solar energy companies in the country aiming to deliver 1 Gigawatt of solar and wind energy by 2030, there is a huge spike in demand. Ukraine has a range of incentives designed to encourage investment in solar power facilities.

Who is Ukrainian system Solar LLC?

UKRAINIAN SYSTEM SOLAR LLC – a Ukrainian company headquartered in Kyiv city. Since its foundation in 2011, the company has solely focused on the alternative energy projects, in particular, solar power plants construction both for industrial purposes and private households.

Which solar power plant is located in Dnipropetrovsk?

They are both parts of Zhytomyr Solar Park. The Terslav solar power plant project in the Dnipropetrovsk region will have a capacity of 20 MW. It will be one of the largest solar power plants in Ukraine and will help approximately 9,000 households use renewable energy. It's been launched in May 2020.

Is Ukraine a good place to invest in solar power?

Ukraine has a range of incentives designed to encourage investment in solar power facilities. Since the country is one of the top locations for solar panel installation, this market holds a great deal of potential for any developer looking to enter the industry. Gudzovka has a peak capacity of 24.3 MW, which is enough to power around 23,000 homes.

What is a terslav solar power plant?

The Terslav solar power plant project in the Dnipropetrovsk region will have a capacity of 20 MW. It will be one of the largest solar power plants in Ukraine and will help approximately 9,000 households use renewable energy. It's been launched in May 2020. The territory it occupies is 28 hectares which are a

“home” to 91,000 solar panels.

Is Perovo a solar power plant?

Perovo is one of the largest solar energy plants in the world, with a capacity of 100 MW. Covering an area of around 227 km², it contains close to 400,000 solar panels. When Perovo was built, it was one of the largest renewable energy facilities on Earth and currently is ranked in the top 100.
