

**SolarMax Energy Systems**

# **Venezuela Three PV Inverter Sales**

## Overview

---

How much solar power does Venezuela have?

According to the latest statistics published by the International Renewable Energy Agency, Venezuela had around 5.32 MW of installed solar PV power generation capacity in 2019. In 2019, the Venezuelan government announced a plan to build its first utility-scale PV project to strengthen its National Electric System.

How much wind power does Venezuela have?

At the end of 2019, Venezuela held 71.28 MW of installed wind capacity, a much higher capacity compared to the solar PV installed capacity as of 2019. Venezuela is also planning to build wind farms with a generating capacity of 10,000 MW over the next 15 years.

What is the Venezuela plan for the national electric system?

The Venezuela Plan for the National Electric System aims to integrate renewables in the power system by including them in medium and long-term strategies. It aims to develop the use of renewables within isolated rural communities includes solar.
