

## SolarMax Energy Systems

# Vietnam Airport Energy Storage Equipment

## Overview

---

Why do we need battery energy storage systems in Vietnam?

At the same time, the demand for battery energy storage systems (BESSs) is accelerating, driven by Vietnam's abundant renewable energy (RE) potential, particularly in solar and wind power. However, owing to the intermittent nature of these energy sources, storage solutions are required to ensure continuous electricity supply.

Can battery energy storage systems be integrated into Vietnam's power grid?

Hanoi, Vietnam | June 21, 2024 — The Ministry of Industry and Trade (MOIT)'s Electricity and Renewable Energy Authority (EREA) and the Global Energy Alliance for People and Planet (GEAPP) hosted a technical workshop this month focused on integrating battery energy storage systems (BESS) into Vietnam's power grid.

Where can I find information about battery energy storage in Vietnam?

For more information, please visit and follow us on LinkedIn. Contact: Vietnam's REA and GEAPP hosted a workshop on integrating battery energy storage systems into Vietnam's power grid, where they also launched a report on battery storage co-authored by the Institute of Energy and GEAPP.

Can energy storage help Vietnam meet climate goals?

Co-funded by a grant from U.S. Mission Vietnam, the pilot project will demonstrate how energy storage can help Vietnam integrate more renewable energy into its power system to meet ambitious climate goals.

Is Vietnam a good market for energy storage solutions?

Vietnam represents a promising market for German and European small and medium-sized enterprises (SMEs) specialising in energy storage solutions, thanks to their technical expertise and established reputation in RE technologies.

How a Bess project is promoting energy storage in Vietnam?

Encouraging domestic enterprises to invest in new technologies will promote the growth of the energy storage industry in Vietnam. Investment in BESS projects in Vietnam is attracting the attention of international partners due to the country's strong potential for RE development.
