

## SolarMax Energy Systems

# Vietnam Solar Container

## Overview

---

Does Vietnam have a solar power industry?

Vietnam's solar power industry has grown rapidly since 2017, driven by generous feed-in tariffs and strong government support. The country now has one of the highest installed solar capacities in Southeast Asia, contributing significantly to its renewable energy goals. 2. What challenges is Vietnam's solar power sector facing?

.

How much solar power does Vietnam have?

This included 16 billion kWh from solar power and 7.3 billion kWh from wind energy, according to data from Vietnam Electricity. Solar power, in particular, has seen significant expansion due to the implementation of feed-in tariffs and the increasing adoption of rooftop solar systems.

How is solar energy regulated in Vietnam?

Vietnam's solar power sector is governed by a number of key regulations and policies aimed at promoting the development of renewable energy while managing the challenges associated with rapid growth.

How much does a solar plant cost in Vietnam?

Vietnam's Ministry of Industry and Trade (MoIT) has published the new feed-in tariffs for utility-scale solar plants. For projects without battery storage, the tariff will be VND 1,382.7 (\$0.053)/kWh for the northern part of the country, VND 1,107.1/kWh for the central part, and VND 1,012.0/kWh for the southern region.

Why does Vietnam have a high solar capacity?

The introduction of attractive feed-in tariffs in 2017 spurred a surge in solar installations, leading to a dramatic increase in capacity and investment. As a

result, Vietnam now boasts one of the highest installed solar capacities in the region, contributing to its goal of transitioning to a more sustainable energy mix.

Does Vietnam need a 2025 Solar Plan?

Notably, the 2025 plan mandates that concentrated solar must include storage (minimum 10 percent of capacity, 2-hour duration), a requirement absent in the 2023 version. Vietnam's solar panel trade is regulated under Decree 26/2023/ND-CP, which outlines the Schedule of Export Tariffs and Preferential Import Tariffs.
