

SolarMax Energy Systems

Vietnam energy storage project site

Overview

How much does a new energy storage project cost in Vietnam?

Photo by AMI AC Renewables An energy storage project costing nearly \$3 million will be built in Khanh Hoa Province as part of a new joint venture. Funded by the U.S. Mission Vietnam, the project aims to demonstrate how it can reduce power losses and help Vietnam integrate more renewable energy into the nation's power system.

When will the battery energy storage system be installed in Vietnam?

The power plant will be the first in Vietnam to deploy the Battery Energy Storage System. Nguyen Nam Thang, CEO of AMIAC Renewables, said at the signing ceremony there was a determination to put the project into operation before the third quarter of 2024.

Can battery energy storage be commercially viable in Vietnam?

The BESS project aims to demonstrate the commercial viability of battery energy storage in Vietnam and showcase the practical benefits of renewable energy, including its reliability and efficiency. It also seeks to help Vietnam meet its climate action targets.

Can energy storage help Vietnam meet climate goals?

Co-funded by a grant from U.S. Mission Vietnam, the pilot project will demonstrate how energy storage can help Vietnam integrate more renewable energy into its power system to meet ambitious climate goals.

Did Marubeni launch a megawatt-scale battery storage demonstration project in Vietnam?

The project's official inauguration event held in December. Image: VinGroup. A green energy subsidiary of Japanese conglomerate Marubeni has brought online a megawatt-scale battery storage demonstration project in Vietnam.
