# What are the specifications of the outdoor power supply in Gambia

## Overview

---

What is the mains voltage in Gambia?

The mains voltage in Gambia is 220-240 Volts AC (frequency 50 Hz G ). In in Gambia you will often find variable electrical sockets such as type "C" or type "F". If your appliance's plug doesn't match the shape of these sockets, you will need a travel plug adapter in order to plug in. They do not convert electricity.

What type of plug is used in Gambia?

In the Gambia, type G plugs and sockets are the official standard. Like most former British colonies, the Gambia has standardized on the British plug and outlet system. What is the mains voltage in the Gambia?

The voltage in the Gambia is 230 volts and the frequency is 50 Hz. An ungrounded plug with plastic earth pin.

What does a travel plug adapter look like in the Gambia?

When you are going on a trip to the Gambia, be sure to pack the appropriate travel plug adapter that fits the local sockets. But what do those electrical outlets look like?

In the Gambia, type G plugs and sockets are the official standard. Like most former British colonies, the Gambia has standardized on the British plug and outlet system.

Why are there so many power outages in Gambia?

For nearly five decades now Gambians have had to endure all too common voltage brownouts and power outages. These occurrences have seriously hampered the country's economic development efforts. Most businesses and the more affluent households rely on off-grid sources, such a Diesel Generators, to keep the lights burning.

How much electricity does the Gambia have by 2030?

By 2030 the Gambia is committed to ensuring that at least 66% of the population has access to electricity, with 100% access in urban and 36% in rural areas.

Does Gambia have electricity?

The Gambia is a country in West Africa that is entirely surrounded by Senegal except for its coastline on the Atlantic Ocean at its western end. It is the smallest country in mainland Africa. As of 2016, it is estimated that only just over one-third of Gambians have access to electricity, with a rural electrification rate of 25%.
