

## SolarMax Energy Systems

# What does centralized procurement of energy storage systems mean

## Overview

---

What does the PU's Energy Storage Procurement Framework do?

The PU's Energy Storage Procurement Framework provides crucial motivation to the development of both demand and supply in this marketplace. Since the time of Assembly Bill 2514 and through 2021 California built a rich ecosystem for energy storage research and development, commercialization, and project deployment.

Who published the CPUC Energy Storage Procurement Study?

This work has been developed and published by Lumen Energy Strategy, LLC in Oakland, California under commission by the California Public Utilities Commission.

What is California's energy storage procurement framework?

California's energy storage ecosystem, built since Assembly Bill 2514 and through 2021, includes a crucial component: the PU's Energy Storage Procurement Framework. This framework motivates the development of both demand and supply in the energy storage marketplace.

What will the CPUC's next energy storage procurement study look like?

The CPUC's next energy storage procurement study will likely consider more complex market interactions as storage penetration increases, with even more historical data to work with.

What is the CPUC's role in energy storage?

In 2010, California Assembly Bill 2514 (Skinner) directed the California Public Utilities Commission (CPUC) to determine appropriate targets for the procurement of energy storage systems by electricity load-serving entities under its jurisdiction.

Where can I find a California energy storage procurement study?

You can find the California Public Utilities Commission Energy Storage Procurement Study at [The study was prepared by Lumen Energy Strategy, LLC for the California Public Utilities Commission and was released on May 31, 2023.](#)
