

## SolarMax Energy Systems

# What energy stations are there in Sri Lanka

## Overview

---

Sri Lanka's electricity demand is currently met by nine thermal power stations, fifteen large hydroelectric power stations, and fifteen wind farms, with a smaller share from small hydro facilities and other renewables such as solar. Most hydroelectric and thermal/fossil fuel-based power stations in the country are.

As of 2015, 1,464 MW of the total thermal installed capacity was from state-owned power stations: 900 MW from , 380 MW from the state-owned portion of .

• • • • .

HydroelectricHydroelectricity has played a very significant role in the national installed power capacity since.
