

## SolarMax Energy Systems

# What is the size of an outdoor power supply in Luxembourg

## Overview

---

What types of plugs are allowed in Luxembourg?

Luxembourg has standardized on type F sockets and plugs. Type C and type E plugs can also be used thanks to their compatibility with type F sockets. Typically, type C plug sockets are not allowed to be installed in Luxembourg: these outlets are not earthed and are therefore considered dangerous.

Do Europeans need a travel adapter in Luxembourg?

Europeans do not need a travel adapter or transformer when traveling to Luxembourg. Most device plugs will work with the outlet types in Luxembourg. Also, the voltage in Luxembourg is the same as in Europe. What Outlet does Luxembourg Use?

Type C plug sockets are used in Europe, Africa and Asia. They have two round pins and no grounding pin.

What is the standard voltage in Luxembourg?

In Luxembourg the standard voltage is 230 V and the frequency is 50 Hz. You can use your electric appliances in Luxembourg, if the standard voltage in your country is in between 220 - 240 V (as is in the UK, Europe, Australia and most of Asia and Africa). Manufacturers take these small deviations into account.

Do I need a voltage converter in Luxembourg?

This is the case in most of Europe, Australia, the United Kingdom and most countries in Africa and Asia. If the standard voltage in your country is in the range of 100V-127V (which is most common in the US, Canada and countries in South America) you might need a voltage converter in Luxembourg. The standard frequency in Luxembourg is 50Hz.
