

## SolarMax Energy Systems

# What to do if the site energy battery cabinet is out of power

12.8V6Ah

Nominal voltage (V):12.8  
Nominal capacity (ah):6  
Rated energy (WH):76.8  
Maximum charging voltage (V):14.6  
Maximum charging current (a):6  
Floating charge voltage (V):13.6~13.8  
Maximum continuous discharge current (a):10  
Maximum peak discharge current @10 seconds (a):20  
Maximum load power (W):100  
Discharge cut-off voltage (V):10.8  
Charging temperature (°C):0~+50  
Discharge temperature (°C): -20~+60  
Working humidity: <95% R.H (non condensing)  
Number of cycles (25 °C, 0.5c, 100%dod): >2000  
Cell combination mode: 32700-4s1p  
Terminal specification: T2 (6.3mm)  
Protection grade: IP65  
Overall dimension (mm):90\*70\*107mm  
Reference weight (kg):0.7  
Certification: un38.3/msds

## Overview

---

How do you put batteries in a cabinet?

Using a 2 person lift, insert batteries into cabinet standing them up vertically with battery terminals facing upwards. Securely fasten batteries in places using provided clamp bar and nuts. Connect corresponding Amphenol cables to batteries.

Where can a battery cabinet be installed?

Ranging in 300 to 400mm deep they are suitable for installation in walkways, sides of buildings, alongside industrial equipment and areas with limited space. The cabinets come pre-wired with all interconnecting battery cables and a DC busbar for easy indoor or outdoor installation of our batteries.

What if a Powerplus Energy Cabinet is damaged?

All cabinets from PowerPlus Energy are designed to be transported empty of batteries and heavy PCE. A damaged cabinet should not be used and should be returned to PowerPlus Energy or disposed of via a recycling facility.

What is a battery energy storage system?

A battery energy storage system (BESS) is an electrochemical device that charges (or collects energy) from the grid or a power plant and then discharges that energy at a later time to provide electricity or other grid services when needed.

How do I install a battery in a Pew enclosure?

Ensure all filings from forming holes are removed from cabinet. Connect main DC cable from main System (PCE) DC isolator to the PEW enclosure DC busbar with M8 nut, washer and locking washer and tighten. Using a 2 person lift, insert batteries into cabinet standing them up vertically with battery terminals facing upwards.

How many P series batteries can be installed in a cabinet?

DC isolator, main DC busbar and all interconnecting battery cables are provided and should be installed to suit your layout inside the cabinet. Up to 6 P Series batteries can be installed on the lower shelf, and an additional 6 P series batteries on the upper shelf.
