

## SolarMax Energy Systems

# Where to replace liquid-cooled energy storage battery cabinets in Australia

## Overview

---

How do I store my batteries?

Standard or custom designed racks, cabinets and cubicles to store your batteries conveniently, safely and securely. Our racks, stands and enclosures are designed and built to comply with Australian Standards. To endure tough environments, the robust design keeps your investment in optimal operation.

What storage solutions are available for battery energy batteries?

Our space efficient storage solutions for batteries are designed to accommodate vertically or horizontally installed Battery Energy batteries. Horizontal rack configurations offer a minimum 600mm x 600mm footprint of and can cater for up to eight fully adjustable shelves.

Are battery energy enclosures secure?

Available in an upright drop in style or cabinet style with either thermal insulation or air conditioning, the enclosures are secured with robust key lock doors to protect your equipment. Our Sydney warehouse carries Battery Energy standard racks and enclosures ready to ship for your project.

Can a battery enclosure be supplied with an isolator?

Enclosures can be supplied with battery isolators. Clear and precise work instructions to make sure your installation is painless. Standard or custom designed racks, cabinets and cubicles to store your batteries conveniently, safely and securely. Australian made.

Can I add more cabinets to my solar system?

Please note: Larger systems are possible by simply adding additional cabinets. Ready to get started?

We can provide you with a quotation for all your solar and power requirements. Wescor are the Off-grid and On-grid Battery Storage Experts.

Wescor provides and installs quality Battery Enclosures. Call 0401 556 546.

Can ICS battery enclosures be custom designed?

ICS battery enclosures, cabinets, and battery racks can be manufactured as standard or custom designed to accommodate any battery string configuration.
