Which solar base station is better in the Democratic Republic of Congo

Overview

How will the DRC telcos support a new solar-powered base station?

According to the telcos, the JV will extend network coverage for up to 19 million people in less densely populated rural areas of the DRC. To support the connectivity plans, the duo have pledged to jointly build up to 2,000 new solar-powered base stations over the next six years, which will provide 2G and 4G connectivity.

Which telco operates in the Democratic Republic of Congo?

In DRC, Orange has more than 15 million subscribers, and more than 3,400 sites. South African-based Vodacom, which is a subsidiary of UK telco Vodafone, operates in several other African markets, including the Democratic Republic of Congo, Egypt, Ethiopia, Kenya, Lesotho, Mozambique, and Tanzania.

How can the DRC bridge the digital divide?

Deploying and operating networks, particularly in deep rural areas, continues to be a significant challenge in the DRC. To bridge the digital divide and expand network coverage in underserved communities, the companies have pledged to jointly construct up to 2,000 new solar-powered base stations over six years, using 2G and 4G technologies.

What is mobile internet penetration in the DRC?

Mobile Internet penetration in the DRC is at 32.3% and Orange and Vodacom's announcement to construct new base stations in the country aligns with the country's new vision for the digital economy as included in the National Digital Plan Horizon 2025 adopted in 2019.

What will DR Congo's new power station provide?

The power station will provide an estimated 250 GWh of clean energy to the national grid of DR Congo, enough to supply 1.25 million Congolese people.

Other beneficiaries include mines in the Lualaba Province, including those of copper, cobalt, gold, uranium and radium.

What is Kolwezi solar power station?

The Kolwezi Solar Power Station is a proposed 100 MW (130,000 hp) solar power plant in the Democratic Republic of the Congo. The power station is under development by a number of independent power producers and international financial institutions.
