Who built the photovoltaic base station in Cote d'Ivoire

Overview

The 37.5MWp Boundiali solar photovoltaic PV power plant is owned and operated by CI-Energies (Côte d'Ivoire Energies). Saft, a TotalEnergies subsidiary, won the contract from Eiffage Energie Système to deliver a 10MW Energy Storage System (ESS). Where is the first solar power plant in Côte d'Ivoire?

In Boundiali in the north of Côte d'Ivoire, the country's first solar power plant has now been inaugurated by Ivorian Prime Minister Beugré Mambé and German Parliamentary State Secretary Bärbel Kofler. The power plant has already been providing up to 37 megawatts of power since June 2023.

Will Côte d'Ivoire have a solar power plant?

The solar power plant is then expected to be the largest in West Africa. The further expansion of solar energy in Côte d'Ivoire will primarily be realised by private investors. The successful project in Boundiali demonstrates to them that large solar projects are technically and financially feasible in similar countries.

Why did KfW build a solar power plant in Côte d'Ivoire?

"We also endeavoured to create employment for the local population," emphasises KfW Project Manager Clara Winkler-Tomety. During the construction phase, 75% of the workers came from the region. The new solar power plant in Côte d'Ivoire is helping to achieve the goals of German development cooperation in the expansion of renewable energies.

How will a new solar power plant benefit Côte d'Ivoire?

The clean electricity generated in this way can supply 35,000 households, benefiting around 150,000 people. The new plant will save 35,000 tonnes of greenhouse gas emissions every year - an important contribution to climate protection. The solar power plant is regarded as a model project for the expansion of solar energy in Côte d'Ivoire.

Where is Ivorian power plant located?

Located in Boundiali in the north of the country, the plant has already been providing up to 37MW of power since June 2023. It was officially launched this week by Ivorian Prime Minister Beugré Mambé and German Parliamentary State Secretary Bärbel Kofler.

Is Cie launching a solar farm in the Ivory Coast?

CIE, the Ivory Coast's state-owned utility and subsidiary of French group Eranove, has recently completed the development of this solar farm in the Boundiali Department, Bangoue Region. The solar power plant is now set to supply clean electricity to 30,000 households in the region. But, its launch date is yet to be known.
