

SolarMax Energy Systems

Wind and solar complementary supply for Ethiopian communication base stations

Overview

The wind-solar-diesel hybrid power supply system of the communication base station is composed of a wind turbine, a solar cell module, an integrated controller for hybrid energy management for communication, a battery pack and an outdoor incubator for the battery.

Wind and solar complementary supply for Ethiopian communication

Nanjing OULU successful installation and delivery of ...

China Mobile Inner Mongolia needs to establish a large number of base stations in the vast grasslands and mountainous areas, most of which ...
