Lithium Solar Generator: S150

Overview

TeleYemen is the exclusive provider of international telecommunications for Yemen—fixed-line and wireless mobile companies, , and Internet services—and is one of the mobile-phone operators. In 2003 the government-owned Public Telecommunications Corporation assumed full control of TeleYemen, and a year later it awarded a five-year management contract to .

Does Yemen have a telecommunication market?

ETC has been operating in Yemen since April 2015 and has provided basic security telecommunication services, Internet hubs, and power charging stations. Conclusion: The ICT market in Yemen is currently an unpredictable market. Significant parts of its telecommunication infrastructure are no longer operational.

What are the 4 mobile network providers in Yemen?

The four mobile network providers currently present in the mobile phone market are Yemeni Omani United (YOU, previously MTN Yemen), Sabafon, Yemen Mobile, and Y (Y Telecom). ^ a b c d e f "Yemen", World Factbook, U.S. Central Intelligence Agency, retrieved 16 February 2013.

Why is telecommunication so expensive in Yemen?

Yemen has gone through political instabilities and turbulences over the past few years, which has affected the overall economy, affordability, infrastructure, and ICT development. The prices for telecommunication services are above the average prices in the region.

Who regulates the telecommunication market in Yemen?

Government policy: The Yemen Ministry of Telecommunications and Information Technology (MTIT) regulates the telecommunication market. The MTIT is responsible for the following tasks: formulating policies and plans to encourage investment in the sector, managing the frequency spectrum, licensing, and maintaining the national numbering plan.

Is broadband available in Yemen?

Fixed services: Fixed broadband is limited in Yemen. In 2012, the Public Telecommunication Company (PTC) began to install a national WiMAX network to improve the availability of Internet access. While competition has been introduced into the mobile sector, there is no competition in fixed lines and very little in Internet provision.

How competitive is the mobile cellular market in Yemen?

However, the level of competition in the mobile cellular market is very high with four cellular market players; Sabafon, MTN Yemen, Yemen Mobile, and Yemen telecom. The Yemen cellular market has been competitive since 2001 when Sabafon and MTN Yemen (previously known as Spacotel Yemen) launched cellular services.
