

SolarMax Energy Systems

Zero electricity bill home solar integrated machine

Overview

What is a zero bills home?

Your Zero Bills home is designed with exceptional energy efficiency, featuring solar panels, an air source heat pump, a home battery, and smart technology to help you live comfortably and carbon-free. Founded in 2010, our mission has always been to enable everyone to live zero carbon.

How long can you live with zero energy bills?

Enjoy life with zero energy bills for at least five years, guaranteed. Imagine living in a home where energy bills are a thing of the past. A home where the heat from your underfloor heating, the glow from your lamps, the freshness of your fridge, and every other powered device cost you absolutely nothing to run.

What is zero bills?

Zero Bills is the natural next step in a journey we began over a decade ago. We're proud to partner with Octopus Energy for this groundbreaking phase in sustainable living. Octopus Energy launched in 2016 with a mission to make energy cheaper, greener, and more accessible for everyone.

What is zero bills & zero compromise?

Welcome to the next generation of sustainable living—Zero Bills, Zero Carbon, Zero Compromise. Your Zero Bills home is designed with outstanding energy efficiency, featuring solar panels, an air source heat pump, a home battery, and smart technology. Together, these innovations let you live comfortably and carbon-free.

How many homes could be upgraded to zero bills?

We think about 500,000 homes built since 2013 in the UK could be upgraded to the Zero Bills standard. That's a huge number of homes that could see bills disappear. Zero Bills is helping to make green living the easy, affordable

option for everyone. And we've got the tech, the partners, and the ambition to get it done.

How does a solar energy system work?

From sunrise, the system captures solar energy and delivers it directly to your home through its grid-tied output. Surplus energy is automatically stored for use during peak hours, at night, or in the event of a short-term outage.
